DATE: June 13, 1986  
TO: Distribution  
FROM: V. McLane  
SUBJECT: CINDA Coverage of Area 1 Experiments by NEA-DB

We have noticed a problem with the entry of data published by experimentalists from our area in journals covered by the NEA Data Bank.

We have made a complete coverage of several journals from the NEA Data Bank area from October 1984. Attached is a listing showing the articles which contain data which should be entered into the CINDA data base. The second and third columns show how and when the data were entered. Those references with no entry in column 2 have not yet been entered in CINDA.

There appears to us to be a major problem with the coverage.
