I would like to propose that the "final" CINDA archive not be published until 1990. This delay will allow us to work on a "final" CINDA review (also called clean-up) and permit NNDC and NEA-DB to make any necessary financial arrangement with IAEA.

In the interim, there should be published only a single non-cumulative supplement in the spring of 1988 and in the spring of 1989. No six month supplement and no cumulatives like CINDA 87 would be published. Some savings will accrue which might be used for the 1990 "final" publication.

CINDA 87	(1982 - 1987)	Spring 1987
CINDA 87A	(1982 - 1988) Supplement	Spring 1988
CINDA 87B	(1982 - 1989) Supplement	Spring 1989
* CINDA	(1935 - 1990)	1990

\* Supersedes all previous editions.

The future form of CINDA after the 1990 edition could be reviewed in the next two years when we have more experience with on-line systems. At the present time, I do not believe that it will be cost effective to continue to publish CINDA as in the past.
