Memo 4C-1/209

334-F4.01.11

DATE: February 8, 1990
TO: Distribution
FROM: V. McLane, C.L. Dunford
SUBJECT: Neutron Data Literature Coverage

Because of a reduction in staff, the NNDC will no longer be doing a complete CINDA coverage for the literature in our area; we will, generally, be entering only experimental neutron data references for data we compile and the associated EXFOR information. The Nuclear Structure Reference File, however, has complete coverage of the neutron data published in journals.

In order to assist the other neutron data centers in keeping up with the published data, we plan to send to each center a monthly retrieval of all neutron data entered into NSR. There is no laboratory information in NSR, therefore, there we will be sending one retrieval for all the data.

Please let us know if this is useful or if you have any comments.
