Memo 4C-1/211

DATE: March 26, 1990  
TO: Distribution  
FROM: V. McLane  
SUBJECT: Reply to comments on Area 1 transmissions

It seems to me that it might be a good idea to respond to comments on transmission files. When there is no reply, the other centers assume that the comments made are agreed to be the responsible center and may be waiting for updates which will never be made.

This is a response to the comments on area 1 transmissions by NDS for transmission files 1230 - 1235.

For those data sets for which I have not made a comment, the corrections will be made as requested.
