

MEMORANDUM 4C-2/69

Date : 21st January, 1976
From : Anton Schofield
Subject : TRANS 2025

Anton Schofield

1. New conference code (X4 DIC.7)

74 SMOLEN
(20474)

Internat. Symp. on Neutron induced
reactions, Smolenice, 1-7 Sept. 1974

2. This tape has been obtained through automatic conversion of data already in the NDCC internal file. For this reason, resonance parameters do not appear in composed EXFOR tables. Furthermore, the conversion program failed to display two assymetric angular resolution pairs in records 26, 27 and 35, 36 in 20475.005, and a negative angular resolution appears on the first of each. New headings

- ANG-RSL, + ANG-RSL

will be required for correct presentation of this table.

Distribution :

Dr V. Manohkin (5 copies)
Dr S. Pearlstein (5 copies)
Dr J. Schmidt (5 copies)
