Comments on TRANS 1248

Entry	Subent	Line(s)	Comment
13327	2,3,4	19	Repetition of column heading MISC not permitted (or is it?) Rather use MISC1, MISC2
13440	2,3	21	see above
13469	2,3,4		- " -
13517	2		heading E-EXC-MEAN added to Dict. 24
13528	3-8		FACILITY: giving no facility but only an institute in the facility code seems not legal. Either a suitable facility code should be introduced or only free text be used.

Comments on TRANS 4085

Entry	Subent	Line(s)	Comment
40145	3	4	delete ELEM from SF4 (chain yield refers to MASS only)
40173 *)			1. It seems that the new subentry 14 only repeats values already given in subentries 2,3,4,5,6, and 7; If this is so, then subentry 14 would not be needed. 2. If subentry 14 is kept, then the ISOMER column should be deleted because it is not relevant for mass yields.
41059	3	}	delete 'PAR' from SF5 (not needed if isomer extension is given in SF4)
41061	2,3		
41074 *)	6	17	Mistake in EN value (3.0). Rider file has 3.9 MeV, but the original reference should be checked, perhaps correct value is 5.9?
41076	2		replace ELEM/MASS by 40-ZR-97

*) Retransmission requested

41077 *) 2

1. Such high values are impossible for
fission yields, check units (perhaps
ARB-UNITS instead of PC/FIS?)

2. Put MONIT in COMMON section

41078 3

5

delete METHOD (repetition of subentry 1)

41079 1
2

16

delete MONITOR (given in subentries)
move MONIT to COMMON section

41080 3
4,6

3

replace ELEM/MASS by 58-CE-143
move MONIT to COMMON section

*) Retransmission requested
