Subjects: duplications of ENTRY.

We have received the TRANS R002. The some entries of this TRANS had been compiled the other groups early and had been included into EXFOR MASTER FILE (see Appen.1). Just the some duplications we have found in another TRANS (see Appen. 2).

To our opinion, such duplications will be complicate the center-to-center coordinations in the exfor field.

We believe, that it will be fruitful to discuss this matter at the forthcoming meeting and find solution of this problem to prevent unnecessary duplications in the future.
