

MEMO CP-A/71

15 January 1995

To: Distribution  
From: F.E. Chukreev  
Subject: Dictionary alternation

1. Isomeric transition should be added to Dictionary 30.

IT - isomeric transition. This keyword could be used for radioactive decay only.

2. Next strings should be added to Dictionary 29.

BP - (beta+particle)

EI - (electrons of internal conversion)

3. Next additions should be made to Dictionary 36.

PAR,DA,P,RTH (Diff.partial cross-section with respect to protons,Diff.SIG/Diff.SIG. for scattering by point nucleus)

PAR,DA,D,RTH (Diff.partial cross-section with respect to deuterons,Diff.SIG/Diff.SIG. for scattering by point nucleus)

PAR,DA,T,RTH (Diff.partial cross-section with respect to tritons,Diff.SIG/Diff.SIG. for scattering by point nucleus)

PAR,DA,A,RTH (Diff.partial cross-section with respect to alphas,Diff.SIG/Diff.SIG. for scattering by point nucleus)
