

MEMO CP-C/16

DAI/310(8)

Date: August 3, 1977
To: Distribution
From: S. Pearlstein
Subject: Manual Updates
Reference CP-D/33

We appreciate the effort expended by NDS in providing a revised draft manual for EXFOR including the new "generalized EXFOR" additions. The draft manual can be useful as an interim document, but since the agreed to responsibility for the manuals rests with the NNDC, users should regard the NNDC submissions as the official reference to avoid confusion. Revisions to the EXFOR manual were completed before receipt of CP-D/33. Some parts are already distributed, for example, see CP-C/15 (Sections IV,V,VI) and some are being proofread now. We will review the NDS draft to see if we have overlooked or misstated any technical points. In the interest of avoiding further delay, we will not issue detailed comments on the draft, and will complete the manual revisions as soon as possible.
