

Date: May 17, 1978  
 From: V. McLane  
 Subject: A) EXFOR Manuals  
 B) Major EXFOR Proposals Unresolved

A.) Status of EXFOR Manual

Updates to the EXFOR systems manual have been completed.

The following updates to LEXFOR are in process and will be sent out within the week:

Cross Sections  
 Half-lives  
 Isomeric States  
 Measurement Techniques  
 Partial Reactions

The index updates are also in process and will be sent out in the same update.

Still to be done are the updates for the examples and miscellaneous LEXFOR updates. These will be completed by the end of May, along with a final check of the Manuals.

B.) Major EXFOR Proposals Unresolved

- 1) Variable Product Nucleus: Memos CP-B/21,B/23,C/23,D/36,D/60.
- 2) DECAY-FLAG and ISOMER: Memos CP-B/23,C/23,D/45,D/60.

We seem to have the basis for an agreement to accept both of these. We do not agree to the generalized flag concept.

- 3) Reaction Mechanisms, Spallation: Memos CP-B/17,B/18,B/23,C/21,D/47,D/60.
- 4) Dictionaries: Memos CP-B/23,C/20,C/31,C/36,D/46,D/61.
- 5) Multiple monitors: Memos CP-B/20,C/28,D/56.

We would like to keep this open for discussion at the Paris meeting.
