

BROOKHAVEN NATIONAL LABORATORY

DAE/324-0

MEMORANDUM

CP-C/86

DATE: March 13, 1981

TO: Distribution

FROM: M. Fanelli

SUBJECT: Definition Extension of EN-MEAN (Dict. 24)

Dictionary 24 has an entry EN-MEAN defined as "mean energy of incident particle spectrum." We would like to extend this definition to include those cases when an author quotes average energies for average cross sections, where the values of EN-MIN and EN-MAX cannot be determined.
