Date: March 26, 1982
From: V. McLane *vm*
Subject: Repetition of the data heading MASS

We propose add the Data-Heading Keyword MASS to the list of those keywords which may be repeated within a given subentry for use with fission product yields give for sum of two or more isotopes or masses. An example may be found in data set 10898003 which has been transmitted.

The following addition would be made on page 5.5 of the EXFOR Systems Manual.

6. Two or more unresolved masses should be entered as follows:

ELEMENT NO-DIM	MASS NO-DIM	MASS NO-DIM
54.	135.	136.
