BROOKHAVEN NATIONAL LABORATORY

MEMORANDUM

MEMO CP-C/108

DATE: December 28, 1983
TO: Distribution
FROM: V. McLane *VM*
SUBJECT: Dictionary 24 (Family Flag)

I would like to propose a new family code J for data headings of the type MASS. (ELEMENT would be left as family I).

This would be useful for our checking code in two cases:

- 1.) in setting up from the reaction which families of independent variables should be found in data.
- 2.) in checking for monotonicity these are different variables.
