DATE: January 24, 1984
 TO: Distribution
 FROM: V. McLane *VM*
 SUBJECT: Multiple Reaction Formalism

There has been in the past several years much illegal use of the multiple reaction formalism. Some of the usage is appropriate, therefore, I would like to suggest that the data centers propose additional usage to be discussed at the September technical meeting.

I propose to add:

- e) light and heavy fragment parts for a given fission yield
