DESCRIPTION	<i>[Signature]</i>

DATE: July 27, 1984  
 TO: Distribution  
 FROM: V. McLane *vm*  
 SUBJECT: Obsolete dictionary codes.

We need a way to distinguish between those codes in the EXFOR dictionaries which are obsolete (i.e., they are legal for old entries but should not be used on new entries) and those codes which are extinct (i.e., they have been removed from the CINDA and EXFOR libraries and no longer exist on the files).

These extinct codes should either be removed from the dictionaries or, alternately, marked by a different flag in column 80 (we suggest a 'X').

A list of some extinct codes follows:

Dictionary 3. Institutes

2GERSRE  
 2GERINR

Also all JAP and CHP codes when corrections are done.

Dictionary 7. Books and Conferences

All conferences marked as obsolete should probably be extinct.
