

DA5/324-0

BROOKHAVEN NATIONAL LABORATORY

MEMORANDUM

MEMO CP-C/126

DATE: July 31, 1984

TO: Distribution

FROM: V. McLane *vm*

SUBJECT: 1.) Repetition of Data Headings EN-RES  
2.) Repetition of Data Heading DECAY-FLAG (Memo CP-D/120)

1.) We propose to add EN-RES to the list of data headings which may be repeated for use in the case where a resonance parameter is given for two known resonances unresolved in the given experiment.

2.) The data heading DECAY-FLAG need not be repeated for the example given in Memo CP-D/120. This case may be coded using one flag which is coded in two decay strings.

((8.)38-SR-91,9.48HR)

((8.)39-~~Y~~-91-~~M~~,49.7MIN,DG,555.6,0.558)

Therefore, we propose not to add DECAY-FLAG to the list of data headings which may be repeated.
