FROM: V. McLane  
SUBJECT: Dictionary 16 (Status)

We would like to have an indication in Dictionary 16 of which STATUS codes may be followed by a subaccession number, and propose the following EXFOR Manual update.

Dictionary 16. Status

This dictionary is in the standard format except that column 66 of the explanation field is reserved for a flag indicating whether the code may be followed by a subaccession # "R" indicates that the code must always be followed by a subaccession #, "S" indicates the code is sometimes followed by a subaccession #.

The codes SPSDD and OUTDT would have a "S" in column 66.

The codes DEP, COREL, RNORM would have an "R" in column 66.
