

9 October 1987

To: Distribution

From: H.D. Lemmel *Lemmel*

Subject: Tentative agenda of 9th NRDC Meeting

Please find attached the tentative agenda of our forthcoming Nuclear Reaction Data Centers Meeting. As usual, it is requested that you bring to the meeting a brief activity report in writing which will be included in the Minutes of the meeting together with the conclusions and recommendations reached.

Not all of the proposed agenda items will require much time; the one or other can be ticked off rather fast.

If you wish to suggest additional agenda items you are invited to do so at the beginning of the meeting.

Kindly remember the actions resulting from the last meeting (Memo CP-D/159) and check whether they have been fulfilled.

Note that the sequence on the agenda will not necessarily agree to the actual schedule. Our guests from the US centers (see names below) will probably be available only on Wednesday so that the schedule of the meeting would be adjusted accordingly.

I am looking forward to a successful meeting.

TENTATIVE AGENDA

Part 1: General session

1. Opening, election of chairman. adoption of agenda
2. Brief status reports by participants
3. Brief report on the 1987 INDC Meeting Beijing and actions from the 1986 INDC Meeting
4. Discussions with US participants
5. Schedule for the remaining parts of the meeting; subgroups?

Part 2: Planning and Co-ordination

11. Commitments and co-operation of centers, assessment of present work, scope, priorities, EXFOR/CINDA completeness
12. Customer services, handbooks planned
13. CINDA publication, new "archival issue"
14. Important neutron data not covered in EXFOR
15. Medium energy neutron data
16. Co-ordination of fission-product yields compilation and evaluation (Studsвик meetings)
17. Co-ordination of neutron data evaluation
18. Co-ordination of compilation and evaluation of CPND for medical radioisotopes production
19. Photonuclear data evaluation for ENDF/B-6
20. Nuclear model computer codes, availability, documentation and customer services
21. Future changes in data needs and center scope, if not covered in the items above
22. Planning and co-ordination of future specialists' meetings on nuclear data
23. Dates of the 1988 Technical NRDC Meeting in Vienna and the 10th NRDC Meeting 1989 in Vienna
24. Miscellaneous, Conclusions, etc.

Part 3: Technical session on all Nuclear Reaction Data

31. Review of Actions from the previous Meeting
32. The EXFOR system: rules, Manual, Dictionaries, proposals, etc.
(all items of interest to neutron centers only to be discussed later in Part 5 of the Meeting)
33. Customer services, computation format, etc.
34. Center-to-center on-line data transmission
35. Future plans
36. Miscellaneous, Conclusions, etc.

Part 4: Technical session on CPND and Photonuclear data

41. Compilation and exchange of CPND experiences with TRANS tapes
42. Evaluated CPND in ENDF-6 format
43. Photonuclear data
44. Publications, CPND Bibliography
45. Miscellaneous, Conclusions, etc.

Part 5: Technical session on Neutron Nuclear Data

to be held on Friday, 30 October 1987

51. CINDA: coverage, de-centralized network, etc.
52. WRENDA
53. EXFOR (remaining items from No. 32 above)
54. Evaluated data files
55. ENDF/B processing computer codes
56. Exchange of EXFOR data, experiences with TRANS tapes
57. Miscellaneous, Conclusions, etc.
