Subject: Japanese CPND Group

Following an action of the last NRDC Meeting we contacted Professor H. Tanaka and his CPND Group. We were informed that there was a temporary interruption in the work for budgetary reasons, but that the work is continuing. The NRDF file, including proton incident data, has reached a size of 35MB. The NRDF-to-EXFOR translation program is in progress, and we hope to receive a first magnetic tape soon.

Attached are two name lists of the Domestic Advisory Board of the Japanese CPND Group and the Members of the Japanese CPND Group.
