Energy-Balance Check

![Graph showing energy balance with energy and heating on logarithmic scales.]

- Upper limit
- Energy-balance heating
- Lower limit
Energy-Balance Check

Energy (eV) vs Heating (eV-barns)

- Upper limit
- Energy-balance heating
- Lower limit

Energy (eV):
0 20 40 60 80 100 120 140

Heating (eV-barns):
0 10 20 30 40 50

*10^6

*10^6

Energy-balance heating curve shows a linear increase with energy, approaching the upper limit at higher energies.
