Memo CP-A/15

To: Distribution
From: F.E.Chukreev *4.4.*
Subject: Memo CP-D/81, item 2

The compilation activity of CAJed is not limited 'within the scope of Kachepag'. We are favourable to the activity of Kachepag and to the requests of prof. H.Munzel, but we can not limit oneself 'integral data' only. Our compilation activity: CPND from USSR.

We are ready to help NNDC and another Centers by compiling the papers of USSR scientists also. Our second TRANS A002 will have "integral" CPND, neutron-source data, (d,p) differential data, heavy ions data.
