Memo CP - B/28

- Subjects:
1. Reply to Memos CP-A/8,9; CP-C/46-50; CP-D/70-73
  2. Proposed Additions to Dicts. 3 and 25
  3. Comments on the KACHAPAG Transtape BOO6

28/12/21

ADOS - FUNDENI

1. Reply to Several Memos:

- a) On the following Memos we have no comments, resp. we agree to the proposals:
- CP-A/8, A/9; CP-C/47, C49 + C/50; CP-D/70 to D/73
- b) We appreciate the formulations for the manual updates as given in CP-C/46. We would be very glad, if the addition proposed in CP-B/27, item 2., could be accepted and entered in the new manual/LEXFOR version.
- c) Our comment on CP-C/20 (cf. CP-C/48) has been given in CP-B/18 and CP-B/25 (item 4.).

2. Proposed Dictionary Additions:

- a) Please add to Dict. 3 (Institutes):

2 GERMST (University of Muenster)

2 NEDENT (Eindhoven University of Technology)

2 FR SNM (Centre de Spectrométrie Nucléaire et de Spectrométrie de Masse, Orsay, Laboratoire René Bernas)

Regarding this last lab-code, we would like to ask NEA-DB, whether it is covered by 2FR PAR or not.

- b) Please add to Dict. 25 (Data-Units):

N-B NANOBARNES

3. Comments on the last KACHAPAG Transtape BOO6:

030568

TRANS BOO6, as distributed on Dec. 7, does not contain for all entries the following necessary corrections:

cc: Done for NDS.

- a) Right adjusted E-format data (FORTRAN readable)
- b) New branch-codes UND, (DEF), where applicable.

These corrections will be applied in the near future and will be contained in TRANS 8007.

We believe that the past year was a very fruitful one in settling a good and practicable Generalized EXFOR-System. We thank all the colleagues from the other centers for the good cooperation and send them the best wishes for the coming holidays and the new year.

Distribution:

- |                           |                           |
|---------------------------|---------------------------|
| A. F.E. Chukreev, CAJaD   | G. H. Behrens, FIZ 4      |
| B. H. Münzel, KaChaPaG    | H. A. Marcinkowski, IBJ   |
