

**New dictionaries for CINDA-2001**

Various new dictionaries were proposed for CINDA-2001, partly with conflicting dictionary numbers.

It seems to be the understanding that the new dictionaries will be needed only in Archive dictionary format.

**Existing:**

<b>Dict. # (Archive)</b>	<b>Contents</b>	<b>Notes</b>
12	CINDA Quantities (=old)	= EXFOR dict. # 42 !
43	NLIB for eval. libraries (for ENDF)	
44	Eval. library codes for CINDA	

**Proposed:**

<b>Dict. # (Archive)</b>	<b>Contents</b>	<b>Notes</b>
45	New CINDA quantities	
113	Web retrieval quantities	Based on Dict.# 13
144	Eval. library codes for CINDA, revised	Extended Dict.# 44
52 (47?)	Correspondence old - new CINDA quantities	
48	Energy values for spectrum averages (5 chars.)	
47?	Reader codes
