### Memo CP-E/136

**Date:** September 19, 2008  
**To:** Distribution  
**From:** H. Murakami, K. Kato  
**Subject:** Coding mistakes in CINDA lines

We are checking reference information of CINDA lines (a total of 5409 records). Here we report that 638 wrong lines were found as listed in Section V. We can also provide the list in EXCEL format.

## I. Method

1. 1550 suspicious lines were listed computationally by comparing CINDA bibliographic information (journal code, volume#, page#, date) to the DOI database ( Digital Object Identifier; a permanent identifier given to an electronic document by The International DOI Foundation. ) for the following journals:

AJ, ANE, AP, ARI, CZJ, EPJ/A, FBS, HI, JAP, JIN, JNE/AB, JNE/A, JNE, JP/G, JRN, NIM/A, NIM/B, NIM, NP/A, NP/B, NP, PAN, PHY, PL/A, PL/B, PL, PPS, PR/A, PR/B, PR/C, PR/D, PRL, PR, PS, RCA, RSI, ZP/A, ZP

2. The list was analyzed by humans and right combinations of “journal code, volume#, (issue#), page# (presentation #), date“ were successfully identified on 638 wrong lines by using various internet resources. The others were confirmed that they are not errors.

3. All solutions were also confirmed by the PDF file or hard copy of each article. In this step, mistakes in author’s names were also checked occasionally.

## II. Example of Correction

### 1. Format of this correction

We used following format for the correction:

**J , JOURNAL\_CODE , VOL , ( ISSUE ) , PAGE [ ( SPEECH ) ] , YEAR\_MONTH**

### 2. Criterion of this correction

For the article published as Phys. Rev. C Vol.12, No.3 p.456 (September, 1978)\* :

( \* This article is just an example and does not exist on the database actually. )

## III. Reports on the operation

### 1. Some large articles of NP/A

We did not correct 65 reference which had been referenced each page of large review articles taking a whole issue, for there are no benefit of correcting. For example, all following records can be corrected as NP/A , 190 , 1 , 197207 (F. Ajzenberg-Selove, *Energy levels of light nuclei A=18-20*, Nucl. Phys.**A190**(1972)1), but we did not.

Ajzenberg-Selove.	NP/A , 190 , 115 , 197207
Ajzenberg-Selove.	NP/A , 190 , 117 , 197207

Ajzenberg-Selove.	NP/A,190,61,197207
Ajzenberg-Selove.	NP/A,190,90,197207

## 2. Duplication of corrected data

Some corrections make data duplication. We notice this case by "Dupl." = "Yes" in the list. Data of this column are not exhaustive.

--Ex.:

CINDA RECORD 1: J,PR,94,10,195507 -> J,PR,99,(1),10,195507

CINDA RECORD 2: J,PR,99,10,195507 (also exists already.)

## IV. List of the correction
