

Status: Retransmission of Old Entries
(Action A6)

The first agreement on Entries retransmission was made at NRDC-1999 relating to the 4 digit year code and conversion upper to lower case. This decision was not considered obligatory and no time limit was set for Entry retransmission. Approximately 5000 corrections have been undertaken within the last ten years, i.e., 40% of those Entries which require correction (Table 1).
