

New Manuals (EXFOR Formats, LEXFOR

(N. Otsuka, 2011-05-18)

There have been two NRDC Manuals under revision:

EXFOR Formats Manual (IAEA-NDS-207 Rev.2011/01)

http://www-nds.iaea.org/nrdc/nrdc_doc/iaea-nds-0207-201101.pdf

LEXFOR (EXFOR Compiler's Manual, IAEA-NDS-208 Rev.2011/01)

http://www-nds.iaea.org/nrdc/nrdc_doc/iaea-nds-0208-201101.pdf

Drafts of them were presented in the last EXFOR Workshop (30 August – 3 September 2010), and many comments from the participants have been included in the version Rev. 2011/01. I propose to adopt these manuals as the new versions of the NRDC manuals, and to consider further modifications in the next revisions.

I would like to thank Mr Alexander Oechs (IAEA Nuclear Data Section) for his assistance in finalization process.
