

## English Translation of Yad. Konst.

(N. Otsuka, S. Dunaeva, V. Semkova, 2013-02-07, CP-D/777)

There have been useful data sets published in Yad. Konst. and compiled in EXFOR. A part of the articles were translated to English by the IAEA for INDC reports. However the bibliography of the English versions is often missing in the EXFOR entries. In order to provide more easy access to these translated articles, we systematically checked existence of English translation for all EXFOR entries compiled from Yad. Konst. The result is summarized in **Table 1**.

It is also known that there is inconsistency in coding of Yad. Konst. In 2008, CJD and NDS fixed the coding rule as reported in Memo CP-D/535(Rev.). We checked entries against this rule, and summarized the reference codes requiring corrections in **Table 2**.

In addition, we also checked Yad. Konst. articles available as INDC(CCP) reports (in Russian), because all INDC(CCP) reports are available electronically from the NDS web site, and it provides easy access to EXFOR users understand Russian. Addition of INDC(CCP) reports is proposed in **Table 3**.

Corrections of EXFOR entries for Table 3 could be less important than Tables 1 and 2. Therefore only Tables 1 and 2 were registered to the EXFOR Feedback List. Until completion of all corrections, tables of this memo could be useful for your data centre services.

**Table 1. Addition of English version (translation) information**

Subentry	Keyword	Action
10687.001	REFERENCE	Add R,INDC(CCP)-134,51,1978=J,YK,1978,(3/30),51,1978 (in English)
20706.001	REFERENCE	P,YK-3(30),90,78-> R,INDC(CCP)-134,90,1977 =J,YK,1978,(3/30),3,1978 (in English)
20725.001	REFERENCE	Add R,INDC(CCP)-134,78,1978=J,YK,1978,(3/30),78,1978 (in English)
