

English Translation of Izv. Rossiiskoi A.N. Ser. Fiz (A47)

(S. Babykina, L. Vrapcenjak, N. Otsuka, 2014-05-05)

In order to improve accessibility of Russian publications to non-Russian EXFOR users, addition of English translation is extremely important when it is available. LEXFOR “REFERENCE” also mentions that

“When translations of references exist, these should be included also, for the convenience of users of EXFOR.”

However, a lot of English translation information is still missing in the EXFOR library. Two years ago we reported English translations of Yadernaya Fizika (YF) for addition to EXFOR entries in WP2012-24. Following **Action 47** of the last meeting,

Provide a list of English translation information of Russian journals (e.g., Izvestiya Rossiiskoi Akademii Nauk, Seriya Fizicheskaya)

the English translations of articles published in Izv. Rossiiskoi A.N., Ser. Fiz. (IZV) coded in EXFOR REFERENCE were checked.

We have prepared the list of English translation for addition. We are collecting their copies to check the translation information found in various resources one by one in collaboration with the IAEA Library, but this collection has not been finished.

The list will be distributed to NRDC soon for checking and correction by the originating centres. We anticipate the following number of entries for correction from each centre and area:

Centre	Area	Entries
NNDC	1	1
	C	1
CDFE	M	18
CJD	4	69
CNPD	A	42
	F	56
NDS	3	3
	D	6
	G	2
NEA DB	O	1
NNDC	1	1
	C	1
