

Statistics of checking the preliminary files

Comments were regularly submitted from NDS for all Trans tapes. Comments were not provided from NEA-DB for a short period of time during the staff rotation. Many of the Trans files with neutron data have been checked by CJD as well.

Table 1. Number of Trans tapes checked by Data Centres.

The average time for the submission of comments on preliminary Trans tapes was reduced in comparison with previous reporting periods. However, the time for the submission of the final Trans files by Centres has slightly increased. We shall make some efforts in order to reduce the time from the preliminary transmission to the inclusion of the files in EXFOR.

Table 2. Dates of the preliminary and final transmissions, submission of the comments and inclusion to the EXFOR Master File.
