Update of EXFOR Formats Manual "STATUS"
(N. Otsuka, N. Soppera, 2017-12-01, Memo CP-D/915)

The following sentence of the EXFOR Formats Manual "STATUS" explains the subaccession number field of the keyword STATUS:

> "This field is only permitted for the codes COREL, DEP, OUTDT, RNORM, and SPSDD."

However this sentence requires update whenever we add a new relevant STATUS code. Therefore we propose to change this sentence to

> "This field is only permitted for the codes with a subaccession number field flag R or S in Dictionary 16 (*e.g.* COREL, DEP).".

Addition to this working paper (extraction from the EXFOR/CINDA Dictionary Manual):

Dictionary 16: Status

Line	Contents	Format	Archive	Trans	CHEX
1	Code	A5	13-17	1-5	x
	Internal numerical equivalent	I5	44-48	N/A	x
	Expansion	A52	49-100	(12-65)	
	Subaccession number field flag R code must be followed by subentry number S code can be followed by subentry number	A1	104	66	x
2+	Comment	A55	44-98	12-66
