EXFOR compilation

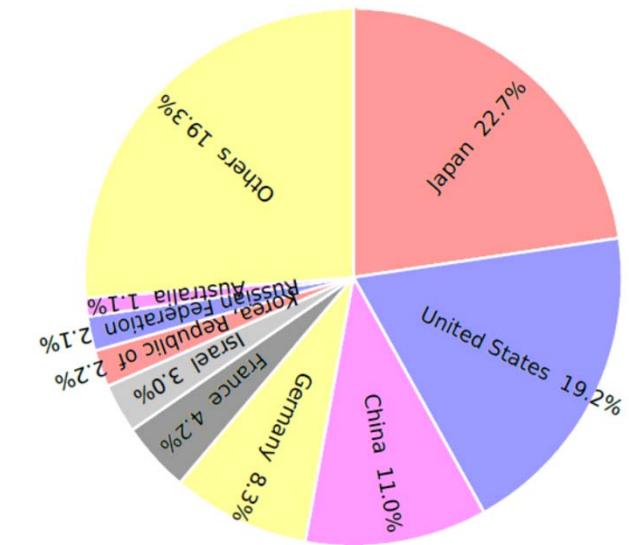

- JAEA started to compile the data measured at J-PARC or by member of our group in 2019.
 - J-PARC TOF: Am, Np, Cm, ...
 - KUR activation: Np, ...
- JAEA is continuing the compilation so far. Otsuka-san has suggested us to do it as an official task.
 - We are thinking it positively.
- Possible responsibility
 - Neutron data measured at JAEA or measured in Japan in cooperation with JAEA Nuclear Data Center
(The compilation may belong to the area 2 and it would be done with a support by NEA DB in checking)
