Question on the new date format in EXFOR

```
Subject: New_Date.Exe again
Date: Mon, 05 Apr 1999 12:04:07 +0400
From: NUCLIDE <Feliks@polyn.kiae.su>
To: Otto Schwerer Schwerer@IAEAND
```

Dear Otto,

      1. Sorry, but previous version of NEW_DATE.EXE contains one error again. I had attempted to exclude zeroes if month and day are unknown (as V.Mclane) and one line was excluded (randomly) from source text. Corrected version is enclosed.

      2. I saw last transes from Vicki (TRANSes C026-C028) and I see, that McLane did **not include zeroes for unknown month and day**. Is it correct? I can not exclude that my understanding of **conclusion #C3** of last meeting is not correct.
      Therefore I delayed the transmission of TRANS A045.
    3. I would like to use data unit DEG-K with data heading KT. Is it possible?
      Thank you in advance,
       Best regards,

F.E. Chukreev, Nuclear Structure and Reaction Data Center,
E-mail: feliks@polyn.kiae.su

Example:

```
TRANS           C025      980311                              10000  0    0
