

FACILITY INFORMATION

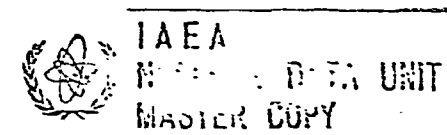

The present Facility Information issue comprises those sheets that have been received by the IAEA so far, resulting from an action within the International Nuclear Data Committee as well as circular letters to certain member states in February and March 1966. Some sheets resulting from this action have already been issued by ENEA as a supplement to EANDC-11. The present sheets have been checked against EANDC-11 and its supplements to avoid duplication, and the numbering of the sheets has been coordinated.

Additional sets of Facility Information sheets can be obtained from the International Atomic Energy Agency, Nuclear Data Unit, Kaerntnerring 11, 1010 Vienna, Austria, or from OECD European Nuclear Energy Agency, Research Office, 38 boulevard Suchet, Paris 16e, France.

FACILITY INFORMATION

INDC-162

Suppl. 1

 INDC-
162
Suppl. 1

The present Facility Information issue comprises sheets that have been received by the IAEA since the previous issue on the 4th of May 1967. The present issue also contains two sheets from Netherlands, that have been given the EANDC-11 designation. As with the May issue, the numbering of the sheets has been coordinated with previously issued INDC-162 and EANDC-11 sheets.

Additional sets of Facility Information sheets can be obtained from the International Atomic Energy Agency, Nuclear Data Unit, Kaerntnerring 11, 1010 Vienna, Austria, or from OECD European Nuclear Energy Agency, Research Office, 38 boulevard Suchet, Paris 16e, France.
